Bay Cits

Created by : JcAc101
Some texture credit : Mizuno
Special thanks to : Abbie0007

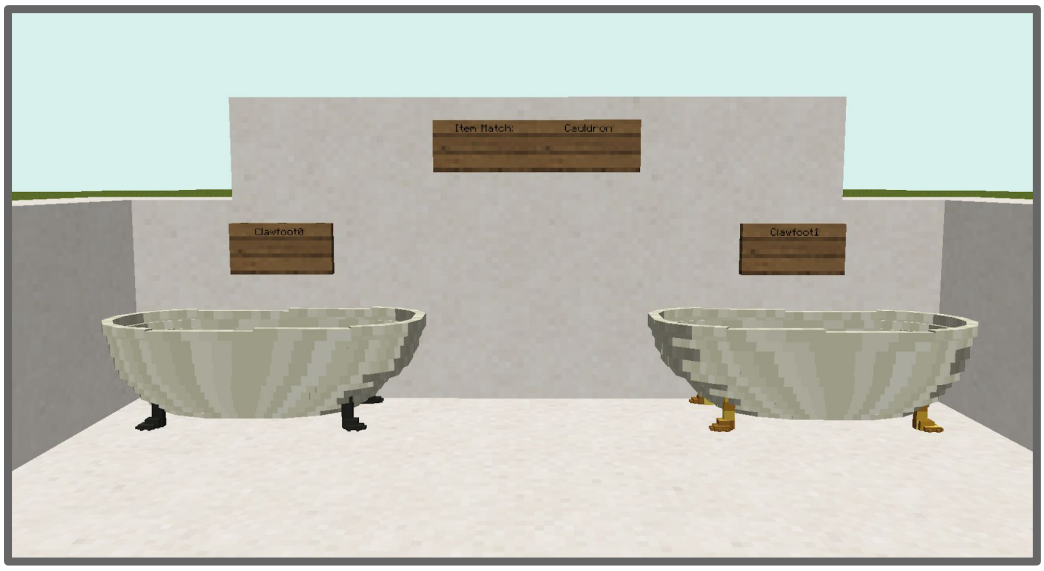
The main namesake of the pack has two different versions.
Rename a glass pane to the set "Bay Window L" and "Bay Window R"
Or just rename one pane to "Bay Window"

The set of two is on the right and has more space to fit something on the middle block, while the left one adds more depth to builds (in my opinion) and only uses one item frame.

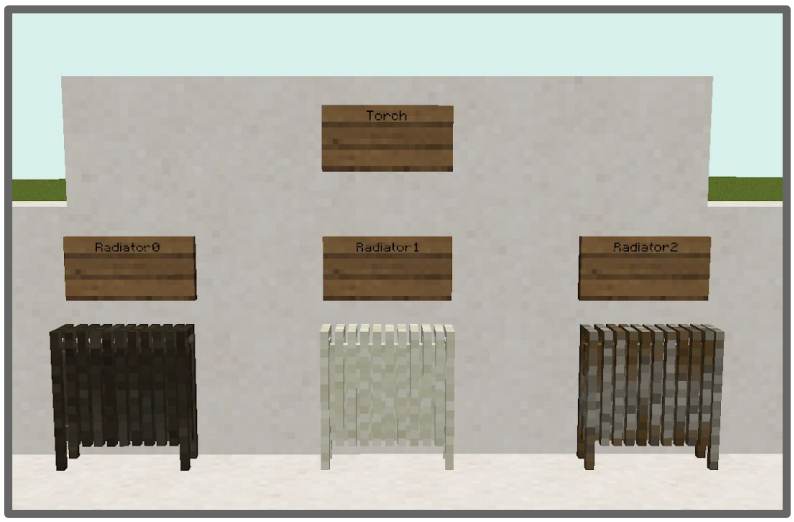
ASSORTED FURNITURE

Rename torch to Torch_(Color)

Rename Stripped Oak Log as shown



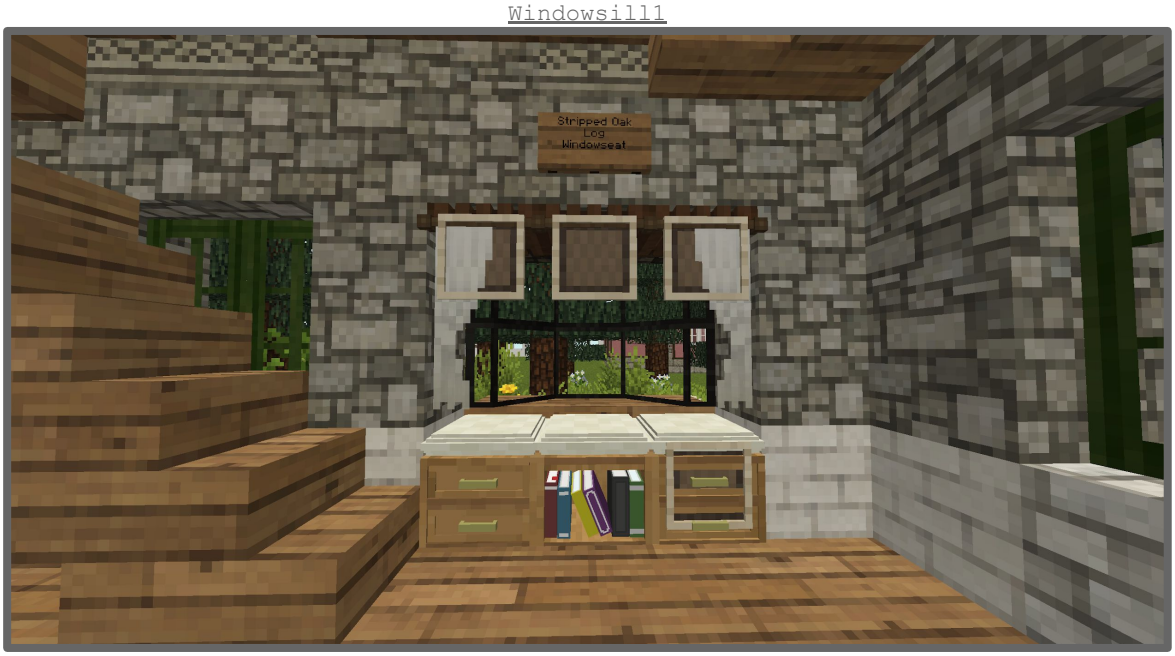
Rename Cauldron to Clawfoot0 or Clawfoot1



Rename torch as shown

Rename Furnace as shown

Rename trapdoors to Windowsill0 or Windowsill1



^^^^^^^^^^^

Rename Stripped Oak Log to Windowseat place on slab

Also if you're a survival player, add a line of trapdoors to the top of your windows! You can even add the curtains from Mizunos CIT to make it extra cozy!

Thank you for downloading my pack!
